

To The Community,

The Impalas Car Club is comprised of a group of friends and family. These friends and family are nothing more than car enthusiasts working with community leaders and law enforcement to make the future of tomorrow safer, and to extinguish the negative images that have plagued the Lowrider community for many years.

The Impalas Car Club does not believe in drugs, weapons, or any gang affiliation. As an organized car club, we are committed to help economically deprived communities by way of public relations, volunteer work, neighborhood clean-up programs, food drives, toy drives, anti-gang programs, and drug awareness and prevention programs. By working with local police departments, the mayor, and city officials we can make the surrounding communities a safer environment for the future. The goal is to ensure a safe, secure family oriented environment.

The Impalas Car Club has the confidence that the surrounding communities can see the long-term benefits of our commitment and to dispel the false and negative images that have plagued the Lowrider community.

Sincerely,
The Impalas Car Club
